CORE COMPETENCIES & SERVICES

We are an MBE and EDGE certified electrical contractor, capable of procuring supplies and participating in projects either as a primary contractor or subcontractor. We are well-positioned to help meet state participation quotas for assignments, offering competitive rates, flexible timelines, and strong bid packages.

We are eager to collaborate with larger electrical contractors, both to benefit from mentorship and to provide high-quality electrical work at competitive rates, delivered on time.

Our services include:

- Inside Wireman installations
- Backup generator installations
- Cable tray installations
- Underground raceway installations
- Lighting installations
- MC cable installations
- Project management services
- Troubleshooting and repair services for commercial applications
- Maintenance agreement services

In residential electrical work, we provide:

- Service installations and upgrades
- Troubleshooting and repair services
- Backup generator system installations
- Complete rewiring
- Emergency Act of God and Insurance Repairs and Mitigation (storms, floods, fires, etc.)
